

### Teachers' perceived positive impacts of children's use of Facebook

### Teachers' perceived negative impacts of children's use of Facebook

**1**

## ***It is the school's responsibility***

- Because it is our job to help them become responsible citizens of the world
- The safety of our children should be our top priority; Teachers are meant to inform and protect our kids; Teachers have the means and power to address it
- Teachers need to adapt their curriculum to what is relevant in their students' lives

**2**

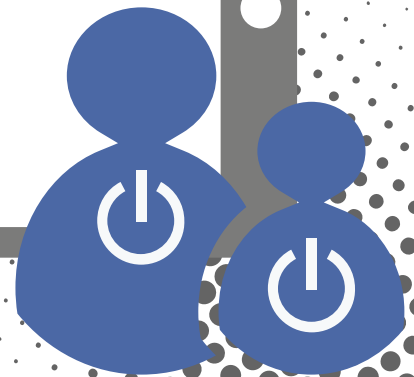

## ***Technology and media is a social reality***

- It is important and it is the current reality
- We are living in a society where technology is continuously expanding

**3**

## ***Parents are not addressing it***

- If it isn't done at home then it should be taught somewhere

# What information do you want children to be aware of in using Facebook (or other SNS)?

## 1 Privacy

- Nothing is private; Nothing is hidden; Keep your profile private
- Don't put anything you wouldn't show to your grandmother; Everything you post can and will be seen by someone you did not intend
- Nothing can be totally deleted; Once it's posted, you cannot un-post it

## 2 Cyber-bullying

- Some people are there to hurt you and take advantage of you; Predators exist; Bad guys are out there
- You are not safe just because you are behind a computer screen

## 3 Interacting with strangers

- Don't add friends unless you or your parents know the person very well
- People are not always who they claim to be online (catfish); They can pretend to be a kid your age, a boy, a girl, whatever will make you trust them

## 4 Don't hurt others with your posts

- Don't say anything you wouldn't say to someone's face; Think about what you are posting. Especially if it's about someone else, ask, would I want this done to me?
- Be aware that it is just words, therefore people can interpret them in the tone/sense that they want

## 5 Don't waste time

- Allot a certain amount of time per day to be on social media (30 min per day to minimize overuse)
